

TEACHING STAFF FEEDBACK ACTION TAKEN REPORT 2025-26

feedback and suggestions received from the teachers, the institution has taken the following initiatives for academic improvement, enhancement of practical learning, employability, library resources, and ICT facilities.

Sl. No.	Feedback/Suggestion	Action Taken by the Institution
1.	Syllabus should be updated with practical knowledge.	The institution has communicated the need for curriculum enrichment to the concerned authorities/affiliating university. Teachers have also been encouraged to supplement the existing syllabus with practical demonstrations, field-based activities, case studies, projects, and experiential learning wherever possible.
2.	Courses should develop more job-oriented capabilities.	Faculty members have been encouraged to integrate skill-based activities, practical assignments, industry-related examples, employability skills, and career-oriented learning into the courses.
3.	Optional papers should be provided to students.	The institution has taken steps to provide students with available elective/optional papers as per the provisions of the university curriculum. Students are informed about the available options and guided in selecting courses according to their interests and career aspirations.
4.	Books should be increased in the library.	The library has been strengthened through the procurement of additional textbooks, reference books, competitive examination materials, journals, and other relevant academic resources based on departmental requirements and student needs.
5.	ICT facilities should be increased.	The institution has taken steps to strengthen ICT-enabled teaching and learning facilities, including computers, internet connectivity, projectors, digital learning resources, and other necessary technological infrastructure, subject to availability of resources. Faculty members are encouraged to use ICT tools in classroom teaching.
