ACADEMIC POLICY

ACADEMIC POLICY

Education and curriculum policies are designed to govern the development of need-based and relevant educational progressions.

1. The primary aim of the curriculum is to nurture learners into proficient and responsible citizens by imparting knowledge, values, and competencies, thereby contributing to nation-building.
2. Stringent safety measures must be implemented to ensure safety across all areas of the institution.
3. Certificate and add-on skill development courses should undergo periodic evaluation to address the evolving requirements of career markets.
4. Initiatives for both slow and advanced learners should be periodically reviewed.
5. Regular feedback from parents should be collected to maintain a consistent track record of learners' performance and ensure parental awareness and support.
6. Compliance with the proposed academic calendar is mandatory.
7. The academic calendar should be prepared annually and well in advance, in consultation with department heads, faculty, and mentors, with flexibility for modifications due to unforeseen circumstances.
8. Constant monitoring is essential to ensure strict adherence to proposed course and program outcomes.
