

## SEMINAR REPORT ON INTELLECTUAL PROPERTY RIGHT

Intellectual property (IP) is a category of property that includes intangible creations of the human intellect and primarily encompasses copyrights, patents and trademarks. It also includes other types of rights, such as trade secrets, public rights, moral rights and rights against unfair competition. Artistic works like music and literature, as well as some discoveries, invention, words, phrases, symbols and designs can all be protected as intellectual property.

A seminar on Intellectual Property Right was organized by Department of Statistics, Darrang College on 28/10/2017. The Seminar of Intellectual Property Right was presented by Dr. M. Raj. Participate student of this Seminar was 43 and 4 teachers were attend this seminar.

During the presentation Dr. M. Raj describes various aspects and purpose of Intellectual Property Right. The main purpose of IPR is to encourage the creation of a large variety of intellectual goods. To achieve this, the law gives people and businesses property rights to the information and intellectual goods they create – usually for limited period time. This gives economic incentive for their creation, because it allows people to profit from their information and intellectual goods they create.
