REPORT ON
"CAPACITY BUILDING PROGRAMMME"

Organised by

NSS DARRANG COLLEGE, TEZPUR UNIT
in collaboration with
NATIONAL DISASTER RESPONSE FORCE

VENUE - NEC CONFERENCE HALL, DARRANG COLLEGE

DATE - 09/09/2026

A total of 155 NSS Volunteers actively participated in the Programme

The NSS Unit of Darrang College, in collaboration with the National Disaster Response Force (NDRF), organised a **Capacity Building Programme** with the objective of creating awareness and developing practical knowledge among students regarding disaster preparedness, emergency response and safety measures. Disasters such as floods, earthquakes, landslides, fires and other emergencies can cause significant damage to life and property. Therefore, developing the ability to respond effectively during emergencies is essential. The programme provided students with an opportunity to learn about disaster management directly from trained NDRF personnel. A total of 155 NSS Volunteers actively participated in the observance .

The main objectives of the programme were to:

- Create awareness about different types of disasters.
- Teach students basic safety and emergency-response measures.
- Demonstrate rescue and first-aid techniques.
- Explain the role of NDRF during disasters.
- Develop confidence, teamwork and preparedness among students.

During the programme, NDRF personnel explained various aspects of disaster management and discussed safety measures to be followed before, during and after disasters such as floods, earthquakes and fires. A practical demonstration was also conducted on basic rescue techniques, first aid, emergency evacuation and the use of rescue equipment. Students actively participated in the session and interacted with the NDRF personnel.

Learning Outcomes

The programme helped students understand the importance of disaster preparedness, quick response, teamwork and responsible behaviour during emergencies. It also increased their awareness of the role of NDRF in disaster response and community safety.

Conclusion

The Capacity Building Programme was an informative and valuable experience for the students. It successfully promoted awareness about disaster preparedness and encouraged students to become more responsible and prepared members of society.
